

*Celebrating 10 Years  
of Saving tiny Hearts*

*Dear Friends,*

*Because of you, we are Saving tiny Hearts. Countless children's lives depend on our HELP NOW and is their greatest HOPE. Attached are many ways that you can make a tremendous difference, so that no family has to ever hear the words; "We don't know how to help your baby."*

*We are forever grateful to have you join us in our relentless pursuit to change the future of medicine to save tiny hearts afflicted with the #1 birth defect. Saving tiny Hearts Society is about everyone's child, someone's baby, a brother, a cousin, a dear friend...in honor of all children. It means everything to have you be an incredible part of our most extraordinary, lifesaving DECADE of SAVING tiny HEARTS.*

*With Heartfelt Gratitude,*

*Francie Paul  
Founder and Chairman Emeritus*

# Be a Part of Something **MAGICAL**

## Live & Silent Gala Auctions

Each year, the StHS hosts a live and a silent auction to raise money for scientific research to prolong, improve and save the lives of countless tiny hearts. Below is a list of common items donated at our gala auctions:

- **Event Tickets** (sports, entertainment, etc.)
- **Memorabilia** (sports and entertainment, etc.)
- **Priceless Experiences** (celebrity meetings, in-home private chef dining, etc.)
- **Gift Certificates and Gift Cards**
- **Vacation Stays** (out of town condos, hotel gift certificates, etc.)
- **Toys**
- **Electronics**
- **Jewelry**

Saving tiny Hearts Society (StHS) funds early-stage, lifesaving research to save the lives of children born with Congenital Heart Defects (CHDs). If not for our efforts, many crucial research projects would not have the chance to determine hidden causes and discover cures to save these kids, so that they can reach adulthood. CHDs are the #1 birth defect worldwide, over 1,000,000 babies are born with one each year however funding for these devastating heart defects is profoundly low. Nationally, less than one cent of every dollar goes to research. Twice as many children die from heart defects than from all forms of pediatric cancers combined, yet funding for childhood cancer is five times greater.

**With your help, we are changing the future of medicine.**
