ABOUT SAVING TINY HEARTS SOCIETY

Since 2006 Saving tiny Hearts Society (StHS) has been working to fulfill its mission of raising seed money for grossly under-funded, lifesaving grass roots research of congenital heart defects (CHDs). These grants act as a bridge to millions of dollars of extramural funding from the National Institute of Health and other outside sources.

To date we have funded millions of dollars to over 50 research projects across the country, Canada, Italy, Israel and around the world.

StHS is one of the United States' most efficient non-profit organizations, maintaining a operating overhead of under 5% of our total revenue. StHS has no paid employees and our board of directors functions with only volunteers who share the passion to discover the answers that will prolong, improve and save the lives of all children born with the world's #1 birth defect, Congenital Heart Defects.

*Thank you...with all of our hearts for
giving of yours*
