

Last year we brought you Around the World.  
This year we're bringing you Home!

Since 2006, Saving tiny Hearts has worked to raise seed money for under-funded, lifesaving research of Congenital Heart Defects (CHDs). To date, we have funded over 70 heart research projects around the world. These grants act as a bridge to millions of dollars of extramural funding from the National Institute of Health and other outside sources. Every one of these hopes to prolong, improve and save the lives of all children born with the world's #1 birth defect, CHDs.

*Thank you*  
*...with all of our hearts, for giving of yours.*
